THE U. S. SENATE DEBATE.

The 30th of January, 1887, Senator Clark, of New Hampshire was called upon to report the consideration of the Woman’s Suffrage Bill. It was referred to, and voted upon under the rule of the Senate that only the committee of the whole be reported by the Senator from New Hampshire. The Senate of the United States, however, has been thwarted since 1872. The bill has been defeated several times, but efforts were made to submit it again. The Senate of Florida, asked for the continued consideration of the bill, as a matter of great importance to thousands of people whose homes were impoverished. But Senate Bill 374, namely, the bill to amend the law, has been put off until the next session.
