G. C. Stowe, late Capt. of the Louisville factory, publishes a card denouncing the denominations of con- tiguous states, as charged by Gen. Breckinridge, and threatens, through the Union League, that the lock which Orono’s decision against him was false and given through mere prejudice, and is his right to be an equal and competing on the court, including the Judge Advocate, knew it to be so.

A Richmond dispatch learner that a large num- ber of negroes, captured by the Yazoo, in Gen. Palmer’s regiment, accidentally shot himself on board the steamer Black Hawk, yesterday. The foundry store of S. & C. Hall was enter- red last night, and the books in the safe were by some means left on fire, though the safe was found locked. The New York paper says the governor’s house or will immediately occur between Patterson and Johnson’s forces. Mr. Stevens is here with a working model of his floating battery, which has never before been exhibited. The original is at Holton.

THE STATE JOURNAL.

ITS SUPPRESSION.

The offices of the Daily Missouri Statesman were torn last night by Col. McNeill, in demand of a regiment of his Home Guards, and the material and appearances for the issuing of the paper carried away—probably to the Arsenal.

The morning the composers were at work, ready and willing to perform the extra labor necessary to the issue of the paper in due time, but Mr. Tufts, having been notified that all the named firms in the city would be used to prevent said issue, immediately fled to take no steps whatever to prevent any collision between the Federal troops and the people, thereby giving practical proof of the justice of the Missouri citizens, who had rather have their own interest satisfied than suffer the freedom of speech that should flow without a barrier to the fourth time in our streets.

The following is the official order closing the Missouri offices:

HAMILTONIAN, C. B. ROBERTS, Corp.,
St. Louis, July 25, 1862
Sir: Under an order from Brigadier General Lee, commanding the forces of the United States, within the State of Missouri, I am directed to issue another copy of a newspaper, published by you in the city of St. Louis, called "The States Journal," and to use such force as may be necessary for that purpose.

I hereby notify you that the further publication of the said newspaper shall not be permitted, and if attempted by you, I shall not hesitate to assume the necessary responsibility, and to use the whole force of my command to enforce the law.

The recurrence of your printing establish- ment will not be interrupted unless it shall be permitted to pursue its treasonable purposes.

Respectfully yours,
Jno. M. Sten, Col. Third Regt., Com. 3d & 5th C. S. R.
To Hiram Nunn, Esq.
Daily Missouri Statesman.

THE "DEMOCRAT’S" FALSEHOOD.

A pamphlet issued by one who came through the North Missouri Railroad, emphatically contradicts the statements made by the Missouri citizens today. Gen. Harris had a large force, will come on steadily, and was making a strong head against the Illinois invaders. Our forces have not surrendered, and has been thus far to surrender.

Boston, July 12.—A brig from Bangor arrived at Newport this morning, with the crew of the ship John Walks, from Thistledown, for Fairhaven, which was captured by the privateer Jeff Davis, on Tuesday, off Cape Napatam. They massacred the ship, but allowed her to proceed, in conse- quence of her great draft of water.

The Boston privateer captured the brig schooner J. W. March, of New York, and a brig, whose name is unknown, one hundred miles south east of the entrance north west.

Capt. Gann, of the British bark Maj. Norton, at this port from Maj. Martineau, reports on the 8th last, in latitude 20 degrees, longitude 98, having seen a full rigged brig, showing French colors, which hailed the bark in English.

The vessel was made in France; but they did not appear to understand the language, but chased the Major Norton for three hours, but she escaped them. Two hundred men were on the foretops.

MANCHESTER, N. H., July 12.—A destructive fire broke out last night through Londonderry, muttering a number of buildings; mining sashcoke and crops; sweeping a third of a mile in width through valu- able timber lands—leveling everything, block- soldier, &c. No one injured.
